SUMMARY

Software Engineer with 3 years of experience building cloud-native applications on AWS. Promoted three times in under three years at Banco Popular. Holds four AWS certifications and specializes in serverless architectures, identity management, and full-stack development using Python, TypeScript, and React.

EXPERIENCE

Software Engineer II | Banco Popular

Jun 2023 – Present

- Deployed enterprise identity management using Keycloak on EC2 clusters, enabling secure SSO across serverless applications and internal services.
- Designed and built serverless notification services and service-to-service authentication libraries leveraging AWS KMS, Secrets Manager, and ACM certificates to secure inter-service communication.
- Built full-stack solutions across server-based and serverless architectures using EC2, Lambda, S3, DynamoDB, RDS, ALB, and API Gateway.
- Earned three promotions (Associate → SWE I → SWE II) through consistent delivery and technical leadership on critical infrastructure projects.

Software Engineer | DECEP – UPR Río Piedras

Jan 2023 – Jun 2023

- Developed and maintained Django web applications using class-based and function-based views, implementing database models and RESTful endpoints for university platforms.
- Built responsive front-end interfaces with HTML, CSS (Bootstrap), and JavaScript, improving usability across student-facing applications.

Cloud Support Engineer Intern | Amazon Web Services

Jun 2022 – Aug 2022

- Designed cloud architectures applying AWS Well-Architected Framework best practices for reliability, availability, and cost optimization.
- Gained hands-on experience with AWS Console and CLI across Lambda, EC2, S3, and RDS in a production support environment.

Research Assistant – NLP | University of California, Santa Cruz

May 2021 – Aug 2021

- Contributed to UCSC's Alexa Prize team, building conversation topic generation using Wikidata API, SPARQL, and Python.

EDUCATION

B.S. Computer Science | University of Puerto Rico, Río Piedras

Graduated 2023

Magna Cum Laude

Software Engineering Bootcamp | Ironhack – Banco Popular (2023)

React, Java, SQL, Spring Framework

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, SQL, HTML, CSS

Frameworks: React, Django, Flask, Spring, NestJS, Prisma, Bootstrap, Tailwind CSS

AWS Services: EC2, Lambda, S3, DynamoDB, RDS, ALB, API Gateway, KMS, Secrets Manager, ACM

Tools & Platforms: Git, Linux/Bash, Keycloak, Docker, Jest, REST APIs

Patterns: Serverless Architecture, MVC/MVT, Microservices, OAuth 2.0 / OIDC

Languages (Spoken): English (Fluent), Spanish (Native)

CERTIFICATIONS

AWS Certified Solutions Architect – Associate | AWS Certified Developer – Associate | AWS Certified Cloud Practitioner | AWS Certified AI Practitioner
